- ** New Payment Limits Effective 4/1/2004
- *** New payment limits implemented for J1000-9/27/2004, J9045 and J9310-9/24/2004

- ‡ Per CR 3312 and MM3312, new payment limits applied to these two (2) HCPCS codes, effective 1/1/2004, implemented 7/25/2004.
- *# Updated for new payment limit per CR 3552.

Note: The presence of a HCPCS code and payment limit in this pricing file does not indicate Medicare coverage of the drug. Similarly, the inclusion of a payment limit within a specific column does not indicate Medicare coverage of the drug in that specific category. These determinations shall be made by the local Medicare contractor processing the claim. The absence of a particular drug from the MMA file means that if the Medicare contractor determines that the drug is covered by Medicare, the local contractor must then determine the program's payment allowance by applying the program's standard drug payment policy rules. Medicare contractors separately determine whether a particular drug meets the program's general requirements for coverage, and if so, whether payment may be made for the drug in the particular circumstance under which it was furnished. Examples of this latter determination include but are not limited to determinations as to whether a particular drug and rout of administration are reasonable and necessary to treat the beneficiary's condition, whether a drug may be excluded from payment because it is usually self-administered, and whether a least costly alternative to the drug exists.
