

Free HIPAA Security Webcast Now Available
June 30, 2003

The CMS Southern Consortium's Achieving Compliance Together (ACT) Team has developed a series of HIPAA presentations. They can be accessed via the internet and there is no cost to you.

To access these presentations, simply click on the following link:

http://www.eventstreams.com/cms/tm_001/

You can choose any of the following presentations:

- 1) HIPAA Message to providers from the Southern Consortium Administrator
- 2) HIPAA Basics
- 3) Provider Steps to Getting Paid under HIPAA
- 4) HIPAA Security (NEW)

The Webcast presentations are designed to automatically detect the line speed of your connection to the internet. If you are accessing the presentation via a modem (dial-up), the video portion will convert to a still picture. Everything else will function the same.

Note: Some firewalls appear to block the automatic line-speed detection. If that occurs, you can select your connection speed from the launch page.
