

Defending Access to Women's Health Care Services Revision Act of 2018

The services set forth below mirror preventive services under the Patient Protection and Affordable Care Act. These preventive and contraceptive services are covered when clinically appropriate, under recommendations of the United States Preventive Services Task Force and supporting evidence. Services apply to D.C. plans that have elected or are required to provide these preventive services. Limitations may apply with respect to the availability, setting, frequency or method of a service or treatment.

These preventive services are offered at no cost to you. This means you don't have to pay a copay or coinsurance, even if you haven't met your deductible. Subscribers are still responsible for their portion of the premiums.

Children

Well child visits (to age 21) to include:

- Autism screening
- Certain diagnostic screenings for newborns
