INTRODUCTION

We are pleased to provide the CareFirst CHPMD Formulary as a useful reference. This formulary can assist providers in selecting clinically appropriate and cost-effective products for their CareFirst CHPMD patients.

The document is reflective of current medical practices of the date on which CareFirst CHPMD completed its standard review.

The CareFirst CHPMD formulary is intended as a reference for drug therapy selection. It is not intended to be comprehensive in nature nor is it a substitute for the knowledge, expertise, skill, and judgment of the prescriber in his or her choice of prescription drugs. Specific drug selection for an individual patient rests solely with the prescriber.

The CareFirst CHPMD formulary is subject to state-specific regulations and rules, including, but not limited to, those regarding generic substitution, controlled substance schedules, preference for brands and mandatory generics whenever applicable.

We assume no responsibility for the actions or omissions of any provider based upon reliance, in whole or in part, on the information contained herein. The provider should consult the drug manufacturer's product literature or standard drug references for more detailed information.

PREFACE

The formulary is organized by sections. Each section is divided by therapeutic drug class primarily defined by mechanism of action- how the drug produces an effect in the body.

Drugs represented in this formulary may have varying cost to the plan member based on the plan's benefit structure. Generic drugs typically are available at a lower member out-of-pocket cost while brand-name drugs will generally cost more than generics and have a higher member out-of-pocket cost. Generic drugs should be prescribed first-line as much as possible unless a patient has experienced an adverse effect and/or a lack of therapeutic outcome after using a sufficient dose for an appropriate period of time.

PRESCRIPTION COPAYMENT

Effective 5/1/24, the Maryland Department of Health (MDH) is requiring all plans, including CareFirst BlueCross BlueShield Community Health Plan Maryland (CareFirst CHPMD), to charge a copayment amount for some pharmacy services. The new pharmacy copayment will be:

- \$1.00 for generic drugs, preferred/formulary brand drugs, and HIV/AIDS drugs
- \$3.00 for non-preferred/non-formulary brand drugs

Certain drugs, such as mental health and substance use disorder medications, are covered by the MDH, and copayment may apply to those drugs. All other copayment policies will remain the same. Pregnant individuals, American Indians, individuals under the age of 21, individuals receiving hospice care, individuals in long-term care facilities, and family

planning drugs such as birth control will remain excluded from the above copayment. If members have questions about this information, they can call CareFirst CHPMD at 410-779-9369 or toll-free at 1-800-730-8530, 8 AM to 5 PM, ET, Monday through Friday. TTY users please dial 711. In accordance with Medicaid regulations (COMAR 10.09.03.03.O), providers may not deny services to any participant because of the individual's inability to pay the copayment. If a member is unable to pay a drug copay, the dispensing pharmacy must contact the CVS Caremark Help Desk at 1-800-345-5413 for assistance.

PHARMACY AND THERAPEUTICS (P&T) COMMITTEE

The CareFirst CHPMD Pharmacy and Therapeutics Committee ("P&T Committee") is an external advisory body of CareFirst CHPMD network physicians and pharmacists. These clinical professionals are utilized to determine the drugs to include on the formulary, providing insights to the safety and clinical effectiveness of drug therapies. Voting members of the P&T Committee must disclose any financial relationship(s) and/or conflict(s) of interest with all pharmaceutical manufacturers and affiliations.

GENERIC SUBSTITUTION

Generic substitution is a pharmacy action whereby a generic version is dispensed rather than prescribed brand-name product. Drug listed in lowercase indicates generic availability. In most instances, when a generic drug of a brand-name drug is released into the market it is covered, and the associated brand-name drug will become non-formulary or not covered. Drugs prescribed are subject to state specific regulations and rules regarding generic substitution and mandatory generic rules apply where appropriate.

FDA approved interchangeable biosimilar agents may be treated as generics.

Generic drugs are usually priced lower than their brand-name counterparts. Prescription generic drugs are:

- Approved by the U.S. Food and Drug Administration for safety and effectiveness and are manufactured under the same strict standards that apply to brand-name drugs.
- Tested in humans to assure the generic is absorbed into the bloodstream in a similar rate and extent compared to the brand-name drug (bioequivalence). Generic drugs may be different from the brand in size, color, and inactive ingredients, but this does not alter their effectiveness or ability to be absorbed just like the brand-name drug.
- Manufactured in the same strength and dosage form as the brand-name drugs. When a generic drug is substituted for a brand-name drug, you can expect the generic to produce the same clinical effect and safety profile as the brand-name drug (therapeutic equivalence).

OVER-THE-COUNTER (OTC) MEDICATIONS

OTC benefit of \$15 per member per quarter is being changed and expanded to the pharmacy benefit formulary effective 1/1/25. CHPMD members will not have a dollar limit on the OTC benefit but can obtain the majority of OTC drugs through the formulary below at the formulary cost share. Provider prescription is still required. Generic OTC products are preferred when available.

SPECIALTY PLAN DESIGN

Specialty Guideline Management (SGM)

SGM is our utilization management program that helps ensure appropriate utilization of specialty drugs based on currently accepted evidence-based medicine guidelines. The utilization management program is available for all therapeutic areas dispensed by our specialty pharmacies. SGM is designed to help ensure safety and efficacy while preventing off-guideline utilization. Drugs which may be included in the SGM program are identified in the formulary as “SP” for your reference.

Note: Specialty drugs can only be dispensed by the CVS Pharmacy® Specialty Services and select University of Maryland Medical System Pharmacies. Providers: please contact either CVS Pharmacy® Specialty Services, Call: 1-800-237-2767, Fax: 1-800-323-2445 or University of Maryland Medical System (UMMS) Pharmacy Services, Call: 855-547-4276, Fax: 410-684-3776. For more information on the Specialty Medications and a list of network Specialty pharmacies, please go to our website Pharmaceutical Management Procedures | CareFirst Community Health Plan Maryland (carefirst.com/medicaid) and click on Specialty Medications.

PLAN DESIGN

The formulary represents a closed formulary plan design. The drugs listed on the formulary are covered by the plan as represented and drugs not listed are not covered unless a non-formulary exception is pre-approved for coverage. Certain drugs on the list are covered if utilization criteria is met (i.e., Step Therapy, Prior Authorization, Quantity Limits, etc.); requests for use of such drugs outside of their listed criteria will be reviewed for medical necessity.

Medical necessity or formulary exception requests will be reviewed based on drug specific prior authorization criteria or standard non-formulary prescription request criteria. Log into carefirst.com/medicaid to check the coverage of drugs on the formulary.

AUTHORIZATIONS

Authorization requests for both **NON-FORMULARY** and **FORMULARY** products requiring either a PA (Prior Authorization), QL (Quantity Limit), ST (Step Therapy) or medical necessity review contact **CVS Caremark®** at: **1-877-418-4133**. CVS will issue a preauthorization decision for covered outpatient drugs within 24 hours of the preauthorization request. A valid decision is either an approval or denial of drug coverage, or a request for additional information. If the decision to cover an outpatient

drug requires additional information, CVS may allow the provider up to 14 calendar days to submit information to make an authorization determination of either an approval or denial. The enrollee and provider will receive an adverse determination within 24 hours of the preauthorization determination. This 14-calendar-day timeframe includes the original 24-hour decision timeframe. **Please submit all clinical documentation supporting the request at the time of submission to prevent a delay in determination.**

FORMULARY CHANGES/UPDATES

CareFirst CHPMD may add or remove drugs from the drug list throughout the year. The formulary changes are reviewed and approved by the Pharmacy and Therapeutics (P & T) Committee or added/removed from the formulary based on the latest medical literature. Monthly formulary changes are posted onto the website at carefirst.com/medicaid.

OPIOID MEDICATIONS

The quantity of opioid products prescribed (including those that are combined with acetaminophen, aspirin, or ibuprofen) will be limited to up to 90 morphine milligram equivalents (MME) per day based on a 30-day supply. **Prescriptions that exceed the 90 MME daily limit will be subject to UM criteria, such as prior authorization.** Members who are opioid-naïve may be subject to additional step therapy requirements [use of an immediate release (IR) formulation will be required before moving to an extended-release (ER) formulation and quantity limit restrictions (first fill will be limited to three days for 19 years and under and seven days for 20 years and older)].

Note: The quantity limits outlined in the formulary reflect post one (1) month Limit of ≤ 200 MME/day (per 25 days).

DIABETIC SUPPLIES

Accu-Chek by Roche and True Metrix by Trividia Health are the preferred covered blood glucose meters, test strips, and lancets for CareFirst CHPMD members. Test strips and lancets have a quantity limit of 200 strips every 25 days.

Formulary alcohol swabs are limited to a maximum cost of \$10 per month. Most alcohol swabs available on the market cost less than \$10. Note: The existing quantity limit of 400 alcohol swabs every 25 days remains.

Embecta is the preferred brand for all insulin syringes and pen needles. They have a quantity limit of 200 syringes or 200 needles every 25 days.

MEDICATIONS CARVED OUT TO MARYLAND DEPARTMENT OF HEALTH

Maryland Department of Health (MDH) is responsible for formulary management of drugs used for behavioral health purposes which are covered under the Medicaid Mental Health Formulary as well as Substance Use Disorder Medications. Drugs in these classes are carved out of the Managed Care Organization (MCO), pharmacy benefit and are payable as fee-for-service through Maryland Medical Assistance and processed by their Pharmacy Benefit Management (PBM): Conduent. For questions about these medications, please connect with the Maryland Medicaid Pharmacy Access Hotline at 833-325-0105 Monday-Friday, 8:00 AM - 5:00 PM or visit [Maryland.gov](https://www.Maryland.gov).

Authorization requests for specific MENTAL HEALTH products contact the Maryland Department of Health (MDH) at: 1-800-932-3918 (Antipsychotic Peer Review Line for children 0-17 years old: 1-855-283-0876).
